I see you everywhere
I see your eyes and touch your hair
You took me on a highway to the stars
And left me half way there

I hold you in my dreams
Your tender kiss is never what it seems
Cos when I wake up in the morning sun
I look, but you're not there

I cannot believe this has happened to me
It's been heaven in your arms
You gave me so much, with an angel's touch
And then you took my heart

I see you in the street
And people turning at my running feet
But when I get up close
A stranger's eyes are looking back at me

Oh I cannot believe this has happened to me
It's like heaven for one day
You left me like this with an angel's kiss

And then you flew away

I see you everywhere
I see your eyes, I touch your hair
Iâ€™m gonna take that highway to the stars
And I will find you there

I see you everywhere
I see you everywhere
I see you everywhere
I see you everywhere, everywhere

And when Iâ€™m looking for you, Iâ€™m gonna find you
And when I find you I am, Iâ€™m gonna hold you
And when I hold you I am, Iâ€™m gonna love you
And when I love you it will, it will be forever
I'm gonna love you
I see you, I see you, I see you, I see you

I see you, I see you, every, every, everywhere
I see you everywhere, everywhere
