And he laid her down in a field of corn
and the sun was on his back
up above there was a clear blue sky
she held him by the hand

She had known him since they both were young
he'd been always in her life
and the first time that he had kissed her lips
she knew that deep inside
that this was.....

Love all the different world
love all the lives
love of the ancient ones
love of the heart devine

Threw the long hard days and the summer nights
he was always by her side
just a boy and girl in an innocent world
before the founders time

When the autumn leaves had turn to go
she would have the wedding day
and the people sang like an angel choir
and everybody said
that this was.....

Love all the different world
love all the lives
love of the ancient ones
Love of the Heart Divine

And the winter came and the winds are born
were blowing with the snow
and he looked so fine in his uniform
she knew that he must go

When the soilders left on the morning train
she was wading him goodbye
and as the tears rolled down for the very first time
the baby kicked inside
and this was.....

Love all the different world
love all the lives
love of the ancient ones
Love of the Heart Devine

Love all the different world
love all the lives
love of the ancient ones
Love of the Heart Devine
