A new moon is laughing up there in the sky, but  
My love is crying and I'll tell you why...

Crisis and confusion when she came along  
Followed by delusion when I found out that I was wrong  
She said "baby, we're cruising along on the crest of a  
wave,"  
And I said "maybe, but baby I'm losing, and the only  
wave is  
Goodbye..."

'cos just when I'm starting to burn with desire  
My blood's getting hot and the flame's rising higher,  
She says "goodnight"..  
And leaves me on fire, and I'm so sorry my love,  
I gotta say goodbye, ooh, ooh,

A new moon, a new tune, another song is coming soon,  
New moon, new day, another love is coming my way,  
She took my heart, and without a word she tore it apart,  
ooh  
New moon, so bright, shine your light on me for the  
rest of the  
Night..  
Scenes of soft seduction, spinning through my head,  
Watching her deduction as I lay grinning on my bed,  
She said "honey, it's so moving, I can almost see our  
wedding day,"  
And I said "funny, you'd better start grooving honey or  
the only move  
Is away"...

And then she turned with that look in her eye  
And I know that bad weather'll be here by and by  
And sure enough, she started to cry, and I'm so sorry  
my love,  
I really gotta fly, ooh, ooh...

A new moon, a new tune, another song is coming soon,  
New moon, new day, another love is coming my way,  
She took my heart, and without a word she tore it apart,  
ooh

New moon, so bright ooh shine your light on me for the  
rest of the  
Night..  
New moon, new moon... oh, oh, new moon  
Bye, bye, bye, new moon, bye, bye, new moon
