"Judge me for who I am  
Don't like me for what I'm not"

In every aspect of my life  
Talk the talk and take the blame  
Stand up for what I feel is right  
And feel no shame

I'm a sinner, but I'm a winner  
Take no shit from anyone  
Speak my mind and do the time  
For my views

[Chorus:]  
Going down - I stand behind the choices I make  
Going down - Be they wrong or right  
Going down - I see fires of hell below me  
Live and die an honest man  
So take me away...

Every day another test  
Run the gauntlet, walk the line  
So live your life to be the best  
Every time

Not a rebel or the devil  
No false facade, I'm true to me  
Stand up to the bastards  
And know I'm free

[Solos: LT]

[Chorus x2]
