Staring out beyond the shadows
To see a world of faces all the same
And find the light behind those darkened eyes
And realise the skies are more than grey

[Pre-chorus:]

Got the hunger but we're wanting more
Forever reaching higher
Remember what we're fighting for
The writing on the wall is

[Chorus:]

Set In Stone
Set In Stone

Ghosts of the past now far behind me
Follow the path towards a brighter day
Now a fire lights inside those darkened eyes
Crucify the lies of yesterday
