Into the center of your eyes...  
I was staring for along time  
Searching for a reason to live  
Searching for a way to walk  
I found a broken pride  
I found a naked soul...  
And some unreal smiles  
I found my Eden...

Again I asked you... do you know who you are?  
... deceitful love and weakness  
Unquestionable lies of mankind here  
... submission, surrender  
Enslaved forevermore by life...  
Life...

I crossed the entrance of emotions  
And suddenly I stopped breathing  
And seasons passed since then  
Now your ghost have melted eyes  
And your voice is roaring... with emptiness  
Now your ghost have twisted lips  
And your mind... distorted... with shame

The rains are coming down from the stars  
With the fever of the mourning days  
... submission, surrender  
Enslaved forevermore by life...  
Life...

But still I am frozen... wearing my sun  
And the moon is still staring...  
Like a mad man through winter's wind  
Screaming... I am alone  
Screaming...  
Screaming...  
I am alone...

Beneath the veil of the night everybody is sleeping...  
like the dead  
And I am lost in this haze  
And consumed by all the written words

Still I don't dare to write my will

Someday I'll hold the pen...  
And I will write my will

Memories flashing for the last time  
And Cracked scenes of reality appear  
I'll try to reach my peace, silently  
And rest my body from all these pains  
If I ask forgiveness to this knife...  
Would it forgive my fragile flesh tonight?
