[Lead: Thomas]

Endless and dark, cold winds of death  
Misty shadows lurk in the night  
Burning the sacred plains of christ  
Destroying the churches with pure hate

Destroy!  
Deathriders from the abyss rise and destroy  
Ride the dark and cold winds of death  
Armed with hate and unrelenting fury  
Souls of once fallen warriors are rising

[Lead: Fredrik]

Apocalyptic chanting  
Demonic possession

The Unholy Cult of Belial gathers for attack  
Destroying all in their way and crushing all the weak  
Feeble creeps of christ are ripped and torn to pieces  
Churches are flaming high by the flames of satan

Destroy!  
Deathriders from the abyss rise and destroy  
Ride the dark and cold winds of death  
Armed with abysmal hate
