Pazuzu - dark king of the four winds  
Pazuzu - bringer of fevers and plague

King of the demons of the winds  
Summoning the ancient scavenging deity  
Heralding an apocalypse of plague and famine  
Hear the howl of the pestilential desert demon god

Pazuzu - dark king of the four winds  
Pazuzu - bringer of fevers and plague

Malevolent force of desolation and disease  
Unleash your fiery breath and set the world on fire  
Vicious demon of the pantheon of nefarious beings  
Beast of the apocalypse - the destructor of human life  
itself

Pazuzu - dark king of the four winds  
Pazuzu - bringer of fevers and plague
