

## Adolescents "Democracy"

Visit "[Democracy](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Is this what you call democracy?  
They're killing us, and you're killing me  
Now I know better, now I can see  
That I don't wanna be in democracy  
Now is the time for us to strike  
Do we know what we're doing, have we set things right?

They're leading us into World War III  
And this what you call democracy  
It's a cry for no government, a cry to be free  
And I don't see freedom in democracy

Democrat, Republican, or Libertarian  
Do you really care what party you're in?  
Did you really think you could make it big  
Living among these nuclear pigs  
If you didn't know you'll never see  
We're too far gone for democracy

Look whats it's done to you and me  
Democracy is not for me  
Democracy is not for me  
Democracy is not for me, it's not for me
