She spent the last of her teenage years  
At home alone with her worst fears  
When the telegraph came, she did not know who to  
blame

[Chorus:]  
She walks alone [x9]

*The War that took her husband's life  
It made a widow of his wife  
The world came crashing in, she made a haunt to rest  
with him*

[Chorus]  
*She walks alone!*

*She leaves the flowers on his grave  
The last one we forgot to save  
A note of long regrets, the pension checks are all she  
gets*

[Chorus]
