I never thought you would leave me.
I thought one day we would have a family.
But I was wrong and girl I admit
I didn't treat you right so you up and quit.
Girl I apologize for all the times you cried.
Stabbed you in the side, I never knew why.
Have you always, get you into this house.
Would we get four bedrooms and a living room with a
couch.
Baby I knew I should've treated you better.
Instead I had a habit to saying whatever.
So you said goodbye and now it is too late.
I use to sing love songs but now no more wedding
days.

[Chorus]
Missing you is all I do.
I can't sleep without my boo.
So use to you being around, you got that heroin love
girl.
But now I'm suffering withdrawals.
I can't eat baby, I can't sleep long.
Can't do nothing if you're not here with me.
(Withdrawals)
Lets call it cold turkey cause I don't have you at all.
Baby, I'm changing and suffering withdrawals.

Now you're gone and I wish I could have you back.
I called your phone, voice mail, I expected that.
My mom is thinking that you with another lover
And he's here in this town.
You made a funny cover.
That's when I used to hug you, used to kiss you,
Tell you I loved you, tell you I missed you.
Baby my heart is shaking, it's missing you.
I win with you baby, but without you I lose.
Baby I know I should've treated you better.
Instead of heading to saying whatever.
You said goodbye and now it's too late.
Said I use to sing love songs, but now there's no
wedding day.

[Chorus]

Missing you is all I do.

I can't sleep without my boo.

So use to you being around, you got that heroin love girl.

But now I'm suffering withdrawals.

I can't eat baby, I can't sleep long.

Can't do nothing if you're not here with me.

(Withdrawals)

Lets call it cold turkey cause I don't have you at all.

Baby, I'm changing and suffering withdrawals.

A part of me is missing because baby I need you.

Wait 'til the dinner, to just let me see you (?)

I need you in every way, cause you are my (?) babe.

I need you like everyday, cause you are my queen lady.

I'm sorry for all the stupid things I did.

You were the one I planned to have my kids.

So baby come back cause I'm needing you boo.

Girl I can't survive without you.

[Chorus]

Missing you is all I do.

I can't sleep without my boo.

So use to you being around, you got that heroin love girl.

But now I'm suffering withdrawals.

I can't eat baby, I can't sleep long.

Can't do nothing if you're not here with me.

(Withdrawals)

Lets call it cold turkey cause I don't have you at all.

Baby, I'm changing and suffering withdrawals.

Withdrawals, withdrawals, withdrawals, withdrawals.

Ooh withdrawals.
