You stand frozen and scream out
in terror as the earth
thunders and quakes
You are part of those forgotten souls
left to suffer and wither away
Now I watch as your fear overcomes you
my mouth is still fresh with your taste
Entombed in your personal hell
through your pain I receive my thrill
Enchanted by the beauty of death
we'll celebrate the blackest of nights
To live in the darkness
destroy the souls of all who beg
for their mercy from the light
To live without fear is the key
to open your mind to the horrors
that dwell deep inside
Abide with me eternally
I shall bring this earth to its knees
you will beg for your mercy from me
Like an animal I can sense your fear
come to me and watch your pain disappear
In your soul I have planted the seed

my pestilent words have set the soul free
Now oblivious to pain and remorse
diablerie has taken its course
Through your pain I receive my thrill
Now reborn, your fear has subsided
in legions you have found your place
You are one of those forgotten
souls that have forsaken that heavenly place
Still I watch
desecrate what you once loved
paradise vanquished and stolen away
Entombed in your personal hell
through your pain I receive my thrill
Enchanted by the beauty of death
we'll celebrate the blackest of nights
To live in the darkness
destroy the souls of all who beg
for their mercy from the light

To live without fear is the key
to open your mind to the horrors
that dwell deep inside
Abide with me eternally
