There I was laying down smoking grass  
Feeling sexy in the sun  
Just sunning my buns in the sun  
Just doing it [because]  
Playing with myself  
Out in the sun

I was pretty far out  
As I started to shout  
When a dildo from mars  
Swinging from a cloud  
Came rushing down  
Landing the ground  
I was freaking out

Out in space they're a sexy race  
But aliens are not my piece of cake  
Android [sex] have little dicks  
Martians don't give me the kicks  
There's just no kick  
With a little dick

They were rotten little mean  
Horny sex machines  
In their dildo ship  
That looked really hip  
And cool  
But I'm no fool  
They showed their tools  
(hahaha)

Out in space they're a sexy race  
But aliens are not my piece of cake  
Android [sex] have little dicks  
Martians don't give me the kicks  
There's just no kick  
With a little dick  
(x2)
