Baby... make your heart for me to hesitate
Wanna see you at your best for me so pass...
In the dark can we can be... anything
Anything, we can do everything

Leave and go, I know you're ready there's no time no
way
Deep and low I need for something for already...
In the dark where we can be... anything
Anything, anything we can do everything

Chorus:

We can do all night taking over

...

But you drinks up high and your neighbor give in
I was far from you and you for me, anything

Eh oh eh, go crazy
Dance all night, day all day
Eh oh eh, go crazy
Dance all night, day all day

All in me take me away to your reality
... we can explore together you and me
In the dark there we can be... anything
Anything we can do everything

Leave and go I know you're ready there's no time no
way
Deep and low I need for something for already...
In the dark where we can be... anything
Anything, anything we can do everything

Chorus:

We can do all night taking over

...

But you drinks up high and your neighbor give in
I was far from you and you for me, anything

Eh oh eh, go crazy
Dance all night, day all day

Eh oh eh, go crazy
Dance all night, day all day

I just wanna go crazy
I just wanna day all day
I just wanna go crazy
Wanna see you say all day
I just wanna go crazy
Wanna see you say all day
Wanna see you day all day

... the night we're taking over
Baby... to life and don't be...
But you drinks up high and your neighbor give in
I was far from you and you for me, anything
