Just because I love you
Doesn't mean I don't get mad
It just means I won't stay mad
For long
Just because I love you
Doesn't mean I don't have bad days
Sometimes I wanna be alone
Just because I love you
Doesn't mean I'm a robot
I am a human being with feelings
Oh
Let me get this straight
You gotta an attitude
Cuz I don't wanna do
Things your way

I can't believe this
I don't need this
I'ma find somebody
That's gon love me

When I'm not pretty
When I don't look my best
When I don't feel like
I gotta have a S on my chest
Have an S on my chest
Yes S on my chest
I can't be supa all the time

So so so Supa
So so so Supa
So so
So so
So so
So supa

Just because I'm your lady
Don't mean you can't treat
Me like a baby
Sometimes rock me to sleep
In your arms (in your arms)

Call me your woman
But every now and then
I want to feel like a little girl

Don't I make you work
Better
Don't I make you feel
Better
Oh Baby
Ain't my love (better)
The best you've ever had

So why you gotta do me like that
Whoa Oh
Let me get this straight
You gotta an attitude
Cuz I don't wanna do
Things your way

I can't believe this
I don't need this
I'ma find somebody
That's gon love me

When I'm not pretty
When I don't look my best
When I don't feel like
I gotta have a S on my chest
Gotta have an S on my chest
Yes S on my chest
I can't be supa all the time

I know I'm extraordinary
But you can't expect me
To be on 10 all the time
I lose my mind
Yea I could go crazy
Wearing this S all day
Across my chest all day
I'm saying
Oh

Let me get this straight
You gotta an attitude
Cuz I don't wanna do
Things your way

I can't believe this
I don't need this
I'ma find somebody
That's gon love me

When I'm not pretty
When I don't look my best
When I don't feel like
I gotta have a S on my chest
Have an S on my chest
Yes S on my chest
I can't be supa all the time

So so so Supa
So so so Supa
Supa

So so so Supa
So so so Supa
So so so supa

I can't be supa all the time

When I'm not pretty
When I don't look my best
When I don't feel like
I gotta S on my chest (all the time)
S on my chest
S on my chest
