Girl I, I like you.
Girl you, like me.
You can be my boo and me, you'll see (Ay yea)
Girl why don't you take one step closer to me (Yeah)

Tryna find you with my eyes closed.
But you turned the lights on, making it somewhat easy
to see
(Yeah yeah) All them other girls were so wrong.
Then I set my sights on you, on you.
(On you) [x12]
(You, you)

Oh I like her but she's not you.
Girl you're everything I ever wanted.
I put my grandmama on it.
Girl, oh girl.
Come a little closer to me (Come a little closer to me)

Tryna find you with my eyes closed.
But you turned the lights on, making it somewhat easy
to see
(Yeah yeah) All them other girls were so wrong.
Then I set my sights on you, on you.
(On you) [x12]
(You, you)

(Oh)
Tryna find you with my eyes closed.
But you turned the lights on, making it somewhat easy
to see
(Yeah yeah) All them other girls were so wrong.
Then I set my sights on you, on you.
(On you) [x12]
(You, you)
