[Intro:]

Do you know you can come to me for anything?

No, I mean... anything

And I'll give you everything

So...

[Verse 1:]

Tell me your secrets

And I'll tell you mine

Every truth, every lie

Every wrong, every right

Every heartbreak, every setback

Every mistake, every crime

Maybe you'll have a go

Make me your best friend

If you lose all, if you win

If you're a saint or if you sin

And if I don't understand I'll do the best that I can

[Pre-Chorus:]

'Cause all

People search high and low

For someone that makes them whole

So I'm not letting go

[Chorus: x2]

'Cause you mean that much to me

So take all this love from me

I'm giving you every part of me

All of this heart of me

Here is my offering

Just give me back my story

[Verse 2:]

I'll be all over you

Be your sanctuary

Bring a wish like a dove, like a prayer

Like a heart

And if that don't do the trick I'll get up quick with my

love
Ask of me anything
Any gift, any kind
Any reason, any time
Any leave of any size
And if you'll need something more
I'll search til I find

[Pre-Chorus:]
'Cause all
People search high and low
For someone that makes them whole
So I'm not letting go

[Chorus: x2]
'Cause you mean that much to me
So take all this love from me
I'm giving you every part of me
All of this heart of me
Here is my offering

[Bridge:]
You're the sun after my rain
I give you my life
Without you it's hard to survive
You are the anchor to my lifeline

[Chorus: x2]
'Cause you mean that much to me
So take all this love from me
I'm giving you every part of me
All of this heart of me
Here is my offering

'Cause you mean that much to me
You mean that much to me
You mean that much to me, baby
