nothing but trouble x2
here comes danny w/ betty from down the street (oh
yeah)
she says she's in love but she falls for every boy that
she meets (mmmhmmm)
she said he's not cruel and big hearted too (yeah)
I think he's crazy, I don't think she knows what to do
(yeah)
boys are why's. they're if's and they're maybe's
they think they're so big but they're just big babies

boys, the trouble w/ boys, the trouble w/ boys, they're
nothin but trouble x2
they make you think they got a halo above them
but boys are trouble
the trouble is I love them

they tell u that they love you
it's easy come and easy go (oh yeah)
they pretend they need ya and tell u what they think
you wanna know (hey)

they can see what we want
we'll always tell them
can't live w/ them
can't live without them

boys, the trouble w/ boys, the trouble w/ boys, they're
nothin but trouble x2
they say hello
that you can read they're mind
some of them loved ya
then left ya behind

I used to lie in bed and cry myself to sleep
he made me promises that he'd never keep

nothing but trouble x3
boys, the trouble w/ boys, the trouble w/ boys, they're
nothin but trouble (fade out)
