At first I kinda liked it bein' here with you  
Bein' what you needed Lord and leadin' you to  
When it started changin' with every passing day  
I went searchin' but I couldn't find the answer  
All I want from you is away  
Oh you hung around and you watched my show but you  
wouldn't pay  
You'll always be just what you are no matter what I say  
All I want from you is away  
[ guitar - steel ]  
Ah one thing that I will say cause I kinda think I should  
Feelin' like a woman in your arms it sure felt good

And if I look behind me and I see you there  
That's enough for me cause I've already been there  
All I want from you is away...
