How I love to be around you when the lonely night  
surrounds you  
How I love to be alone with you  
How I love to have the power to read your mind one  
hour  
How I love to be alone with you

Just to be with you one night you and me alone  
Kiss your lips and hold you tight have you for my own  
This would be a joy unending could be a real beginning  
How I love to be alone with you  
[ ac.guitar ]  
How I'd love to be around you when the lonely night  
surrounds you  
How I love to be alone with you

If I only knew for certain I'd cut out all my flirtin'  
How I love to be alone with you

Just to be with you one night...  
How I love to be alone with you how I love to be alone  
with you
