(Jay Lee Webb)

Christmas Day is getting closer but there's sadness  
mixed with joy

Every day a few more questions from our little girl and  
boy

Not alone but there'll be lonely for their daddy won't be  
here

And just like the air at Christmas there'll be a chill upon  
the chill

Christmas without daddy will be such a lonesome day  
We'll send a prayer and all our love to you so far away  
Your son just wrote to Santa asked him to send you  
home

Yes Christmas without daddy we'll be blue and all alone  
[ steel ]

Christmas without daddy I don't know what we're  
gonna do

On the present from your baby she wrote daddy I love  
you

Your son just wrote to Santa asked him to send you  
home

Yes Christmas without daddy we'll be blue and all alone
