Yeah I love her like she wants me to and I know how  
And it's my duty to know her moods when she gets  
moody  
Yeah I give her what she needs and that's why I'm her  
right now  
Yes I know I love her right 'cause I know how, yeah I  
know how

Yes I know how to hold her when she needs holdin'  
And I know how to kiss her when she needs kissin'  
I understand her every wish and her every wish is mine  
Yes she knows I love to love her and I know how, yeah I  
know how

Yes I know how to hold her when she needs holdin'  
And I know how to kiss her when she needs kissin'  
I understand her every wish and her every wish is mine  
Yes she knows I love to love her and I know how, yeah I  
know how

You better believe I know how
