Hello oh hello fancy me and you the girl you have with  
you sure looks sweet  
But she don't know I'm talking to my old used to be  
And I wonder if you told her yes I wonder if you told her  
about me  
It sure is good to see you it's been a long long time  
don't think I'm foolish if I cry  
But I just can't hide the power of so many memories  
And I wonder if you told her yes I wonder if you told her  
about me  
But I can see she loves you and you can see it too  
She's got you on her mind constantly  
But she don't know the reason why you set me free  
And I wonder if you told her yes I wonder if you told her  
about me  
The party's almost over but let me say before I'd go  
I'm glad at last you found your destiny  
I told her that I love her and held her tenderly  
And I wonder if you told her yes I wonder if you told her  
about me
