Lord Jesus, You gotta get us all back together  
And lead us back to the top of Calvary once again  
Show us where Your blood spilled and first made love  
grow  
'Cause we turned our backs on Your love a long time  
ago

I see people walkin' the streets with hate in their eye  
We've all turned You up, Lord and let Your memory die  
We're like the men who drove nails in Your hands  
Confusion lives in every woman and man  
'Cause somewhere along the way we crucified love

Will it take a miracle to wash the years of doubt from  
my mind  
Or could we just accept this stranger Jesus, one more  
time  
Will he have to get back on the cross and bleed  
So once again we would believe  
And find the love we turned our backs on a long time  
ago

Lord Jesus, You gotta get us all back together  
And lead us back to the top of Calvary once again  
Show us where Your blood spilled and first made love  
grow  
'Cause we turned our backs on Your love a long time  
ago

Lead us back to Your love  
Lead us back to Your love  
Lead us back to Your love  
Lead us back to Your love  
Lead us back to Your love
