Where you been where you been it's the same ole  
question again  
What's the use baby what's the use they ain't never  
gonna turn us loose  
You got dirt all over your face and your lipstick is way  
out of place  
Oh we gonna tell 'em what we tell 'em every time  
before  
They won't leave us alone they want us to come home  
We been busy makin' merries and pickin' wild mountain  
berries  
We're pickin' wild mountain berries that's our excuse  
every time  
We've been busy makin' merries and pickin' wild  
mountain berries  
[ steel ]  
Conway I don't know Loretta I don't know if I can keep  
honey from lettin' it show  
What's our plan tell me what's our plan now you know  
they won't understand  
If my hair is a drippin' wet and my clothes are soakin'  
wet  
And we didn't go skinny dippin' in a cement pond  
You're my baby you're my man and though your hair is  
sure gettin' to be a mess  
And there ain't no berries in your bucket now we'll  
explain it honey as best as we can  
They won't leave us alone...
