You came from the city streets to my little country town  
Your spell is on my baby and you've got me sorrow  
bound  
You don't really love him, you're playin' around for fun  
Woman of the world leave my world alone

You're the devil's woman that's what my man don't  
know  
Why I wear more in swimmin' than you wear to parties  
where you go  
There's a place I know where you should go  
For that's where you belong  
Woman of the world leave my world alone

I don't know about the things, the bright lights taught to  
you  
My country boy don't know them any better than I do  
I'll have to watch him hurtin' after you are gone  
Woman of the world leave my world alone

You're the devil's woman that's what my man don't  
know  
Why I wear more in swimmin' than you wear to parties  
where you go  
There's a place I know where you should go  
For that's where you belong  
Woman of the world leave my world alone
