(Conway Twitty - Tommy Markham)

Other arms have held me before your time

Other lips have thrilled me before your time

Other eyes have seen the light you see in my eyes
tonight

Oh but darling that was long before your time

Other hearts have been broken before your time

Unkind words were spoken before your time

Other ears have heard me say the things I say to you
today

But darling that was long before your time

Before you came along I sang this same old song
before

The melody was born when we walk right to love's door

The words I love you came but I just couldn't sing that
line

Oh but darling that was long before your time

[steel]

Before you came along...
