(Oliver Sain)

(Good thing good thing good thing good thing)

[guitar]

Well you been cheatin' on me big day you know I know
it's true

But there ain't nobody in the whole wide world could
love you like I do

Don't be no fool (don't you be no fool) don't be no fool
(don't you be no fool)

You gonna keep on foolin' around now baby you gonna
mess up a good thing

You gonna mess up a good thing

Now I might have been cheated just a little bit baby like
all the others do

Oh but when I get my paycheck mama I bring it on
home to you

Don't be no fool...

(Good thing good thing good thing good thing)

[guitar]

They tell me you got a nighttime lover a livin' away
cross town

And there'd gonna be but a little while baby before you
cut me down

Don't be no fool...

Now don't you come sneakin' across town baby to catch
me a doin' you wrong

Cause you know everybody's jealous baby we got a
thing goin' on

Don't you be no fool...

(Good thing good thing good thing good thing)
