(Conway Twitty)

Hello oh hello fancy me and you the girl you have with  
you sure looks sweet

But she don't know I'm talking to my old used to be  
And I wonder if you told her yes I wonder if you told her  
about me

It sure is good to see you it's been a long long time  
don't think I'm foolish if I cry

But I just can't hide the power of so many memories  
And I wonder if you told her yes I wonder if you told her  
about me

But I can see she loves you and you can see it too  
She's got you on her mind constantly

But she don't know the reason why you set me free  
And I wonder if you told her yes I wonder if you told her  
about me

The party's almost over but let me say before I'd go  
I'm glad at last you found your destiny

I told her that I love her and held her tenderly  
And I wonder if you told her yes I wonder if you told her  
about me
