(Cliff Thomas - Ed Thomas - Robert McRee)

Where you been where you been it's the same ole
question again

What's the use baby what's the use they ain't never
gonna turn us loose

You got dirt all over your face and your lipstick is way
out of place

Oh we gonna tell 'em what we tell 'em every time
before

They won't leave us alone they want us to come home
We been busy makin' merries and pickin' wild mountain
berries

We're pickin' wild mountain berries that's our excuse
every time

We've been busy makin' merries and pickin' wild
mountain berries

[steel]

Conway I don't know Loretta I don't know if I can keep
honey from lettin' it show

What's our plan tell me what's our plan now you know
they won't understand

If my hair is a drippin' wet and my clothes are soakin'
wet

And we didn't go skinny dippin' in a cement pond
You're my baby you're my man and though your hair is
sure gettin' to be a mess

And there ain't no berries in your bucket now we'll
explain it honey as best as we can

They won't leave us alone...
