The space between stars,
A dark place that sometimes heavies a heart,
I let it hold mine.
I didn't know what I would do
But now I know you...

I put it behind me
And learned to be happy
I busied my life
Found someone to hold me
It was the best love my heart ever knew,
But now I know you...

Now I know how the leaves feel
The moment it rains,
Now I know the moon's pride
Every time the days change,
And now I know how beautiful
The sound of one name can be...

I won't say it's not cold,
I won't say it's all easy.
The troubles that're just no match
For the strength that you give me.
I used to think love could be cruel,
But now I know you...

Now I know how the leaves feel
The moment it rains,
Now I know the moon's pride
Every time the days change,
And now I know how beautiful
The sound of one name can be...

Now I know,
Now I know,

Now I know the reasons we're put on this earth...
Now I know how every prayer needs to be heard...
Now I know a love that I couldn't possibly ever
deserve...

'Cause now I know you...

I used to think love could be cruel,
But now I know you...

Now I know you.

Now I know, now I know you...
Now I know you.

Now I know,

Now I know YOU...
