There must be something in there  
And it's just stuck...  
Sometimes I wish I didn't care half as much.  
I stare and look at you  
And watch you close  
Your lips change position and then it shows.

[Chorus]

I just go on and on around in circles  
Til finally I just cry it out in bed  
Everything you think and feel is left  
Unsaid.

Sometimes I think you love me and sometimes I don't.  
I imagine you'll pour your heart out to me  
But I know you won't.  
I hate the sound of my voice,  
I hate myself,  
I try like hell to just figure you out.

[Chorus]

I just go on and on around in circles  
Til finally I just cry it out in bed  
Everything you think and feel is left  
Unsaid.

[Bridge]

No words to tell me  
The worst thing you could ever say...  
No words to tell me  
You can't live without me another day,  
Another day...

No words to make it better  
Or tear it all down.  
No words, No expression,  
No sound...

I just go on and on around in circles  
Til finally I just cry it out in bed.

Everything I think and feel...  
Everything you think and feel  
Is left  
Unsaid...
