There must be something in there
And it's just stuck...
Sometimes I wish I didn't care half as much.
I stare and look at you
And watch you close
Your lips change position and then it shows.

[Chorus]

I just go on and on around in circles
Til finally I just cry it out in bed
Everything you think and feel is left
Unsaid.

Sometimes I think you love me and sometimes I don't.
I imagine you'll pour your heart out to me
But I know you won't.
I hate the sound of my voice,
I hate myself,
I try like hell to just figure you out.

[Chorus]

I just go on and on around in circles
Til finally I just cry it out in bed
Everything you think and feel is left
Unsaid.

[Bridge]

No words to tell me
The worst thing you could ever say...
No words to tell me
You can't live without me another day,
Another day...

No words to make it better
Or tear it all down.
No words, No expression,
No sound...

I just go on and on around in circles
Til finally I just cry it out in bed.

Everything I think and feel...

Everything you think and feel
Is left
Unsaid...
