When I think about you, baby, all I see is colour
Skies are blue in my mind, when I think about you

I paint a happy face where there used to be a frown
And suddenly my world's not black and white
I draw your lips to mine and feel my feet lift off the
ground

I see things in a different light
It's one of those days where I could be somewhere
And lose all track of time, and everything that's wrong
becomes right

When I think about you, baby all I see is colour
Skies are blue in my mind
When I think about you, baby nothing else could matter
Now that you are in my life, in my life

I write your name with mine in great big letters cross
the sky
It's not a secret that I need, I need to keep
I make two hearts as one, you make me go and lose my
mind
Now feeling is believing
It's one of those nights when I should be sleeping
But I'm still wide awake, and everything that's wrong is
okay, oh

When I think about you, baby all I see is colour
Skies are blue in my mind
When I think about you, baby nothing else could matter
Now that you are in my life
When I think about you, baby all I see is colour
Skies are blue in my mind
When I think about you, baby nothing else could matter
Now that you are in my life

There's a yellow sun even when it's raining
It's a perfect world, now, you're here with me

I don't need wings, I'm already flying, baby
Where I go, I'm not alone, oh no

When I think about you, baby all I see is colour
Skies are blue in my mind
When I think about you, baby nothing else could matter
Now that you are in my life, okay
Na na na na na... Na na na na, I feel alive
Na na na na na... Na na na na, I feel alive, when I think
about you.
