1) You look better tonight than I remember
I'm so glad I got to see you once again
I've enjoyed just stitn' down and reminicin'
but I've enjoyed as much of this as I can stand

2) The way you wish I could get to know your real love
Yeah we'll get together now and then
No I don't think I have time to see her picture
Not right now
I've enjoyed as much of this as I can stand

3) Oh there's so much more between us than this table
All our hopes all our dreams and all my plans
Yes it goes with out me saying I still love you
I've enjoyed as much of this as I can stand

(Refrain) Oh there's so much more between us than this
table
All our hopes, all our dreams and all my plans
Yes it goes with out me saying I still love you
I've enjoyed as much of this as I can stand

Yes it goes without me saying I hate to leave you
But I've enjoyed as much of this as I can stand
