"Little Snow Girl"

Visit "[Little Snow Girl](#)" on MotoLyrics.com

Little snow girl, little snow girl
See the white snow, see it falling
Listen closely someone's calling
Someone's calling out to you.

It's the snow man, it's the snow man
See him beckon, hear him sing out
Little snow girl come and play now
Won't you come and play with me.

For he see's you with his eyes of coal
And he loves you with his heart and soul
No man ever loved no girl
Like the snow man loves his snow girl.

When the spring comes it stops snowing
And the snow man must be going
Little snow girl wipe away that tear
He'll be coming back to you next year...
