Where does that leave me now?

Not long ago under the moonlight  
We gave our hearts away  
One moment in time  
Never felt so right

And I meant every word  
When I told you I'd love you forever  
It was true when I said  
I could never love someone else never

It wasn't a lie  
When I said I'd never leave you  
Lonely but now your gone  
So where does that leave me?

We stood right here  
Looked up to heaven  
You pointed out one star  
Said that one's for us  
And gently kissed me

'Cause you meant every word when ya told me  
You'd love me forever  
Now I gaze on one star every night  
And pretend we are together

It wasn't a lie  
When I said I'd never leave you  
Lonely but now your gone  
So where does that leave me?

I know God needed you  
But not more than I  
Do you hear me?  
Are you near me  
When I close my eyes?

It wasn't a lie  
When I said I'd never leave you  
Lonely but now your gone

So where does that leave me?
