Don't forget the scarf I gave you  
You're gonna need it when the cold sets in  
I know you'll want the leather sofa  
Now that you've finally got it broken in

Go ahead and take the table I just painted  
That stuff was really never you and me  
If there's nothing left in this room tomorrow  
I'll still have all I need

You can't take the time we drove to Denver  
Or that night we went out dancing in the park  
You can't take the Christmas in New England  
Or that feeling I still get in my heart

Whatever else you take is fine  
'Cause I know there was a time  
You loved me back and you can't take that

I can help you pack your suitcase  
But that ain't really what I wanna do  
I'll go along with this decision  
But don't you know that it kills me too

I wouldn't trade the stars for all the memories  
I'd do it all again in a flash  
I'm stronger than I was for having loved you  
And you can't take that

You can't take the time we drove to Denver  
Or that night we went out dancing in the park  
You can't take the Christmas in New England  
Or that feeling I still get in my heart

Whatever else you take is fine  
'Cause I know there was a time  
You loved me back and you can't take that

Whatever else you take is fine  
'Cause I know there was a time  
You love me back and you can't take that  
You can't take the time we drove to Denver
