Dear Mom and Dad
I'm writing this note
To let you know
I'm not coming home
I just wanna say:
I thank you for all that you've done
Next time you see me
I'm sure that you'll cry
I'm writing this note
To tell you I tried
I just couldn't lift myself
What have I become?

[CHORUS]
You've untied the note
And hold me so close
That you can't breathe
I've wasted all
On something so small
That meant to me
If you still want proof
That I'm unhappy
I'll tear out my heart
And force you to see
That all of this time
I was scared to fall
One of those days
Which I cannot handle at all

[PIANO]

Dear Mom and Dad
I know that your there
I know that you can hear me
I know that you care
I just wanna say
That my heart still feels all alone
I feel so abandoned
Lost and alone
Sure I have friends
But they never phone
I just want some angels

To come and take me away

[CHORUS]

You've untied the note
And hold me so close
That you can't breathe
I've wasted all
On something so small
That meant to me
If you still want proof
That I'm unhappy
I'll tear out my heart
And force you to see
That all of this time
I was scared to fall
One of those days
Which I cannot handle X3
At all

[PIANO & GUITAR]

OoohOooh
OoohOooh

Dear Mom and Dad
I'm writing this note
To let you know
I'm not coming home
I just wanna say:
I thank you for all that you've done
You've untied the note
I'm so close
That you can't breath
I've wasted it all
On something so small
That meant to me
If you still want proof
That I still have you
I'll tear out my heart
And hand it to you
That all of this time
I was scared to fall
It's one of those days which I cannot handle X2
One of those days which I cannot handle
At all

Mmm...
