Straight off the T-O,-P-No ego, please don't
We don't, need no, hero
Choppers, eagles, T-I, T-O
I'm M-I-K-E then T-I
(track rewinds)

Straight off the T-O,-P-No ego, please don't
We don't, need no, hero
Choppers, eagles, T-I, T-O
I'm M-I-K-E then T-I,-T-O

Soft like Rudy, Vanessa, Theo
I set it off stony, Frankie Cleo
I'm the one like Morpheus, Trinity, Neo
And swagg plus absolute genius equals, zero

I run wherever, I land on the runway
Give me daylight, and I Ray Rice on the run play
Every time you hate, you just giving me promo
N*gga I runs house, you just Diddy and Jojo

Yea boy, I'm good like arenas from the outside
You can hear the screams, in the arenas from the
outside

Z-E-R,-O-G-R,-A-V,-I-T-Y, Rock a by baby
Like blue denim, latigra navy
The masseraa, T can fly, maybe

How they gonna hand me down bad
B*tch I'm Bremmy Brown, you got hand me down swag

That paycheck you think get your job, I might burn it
I don't chase ham, ham chase me, I'm like Kirit

You can't afford a loss, me I was born to floss
Even if they full court press me, I get my point across

Make cheddar, stack a dock
Look, Ray-Levan-blackin-Pac
Look, way-better-Rapping-stop

Look, Mayweather-Packy-out
Yea a-mess, in-back-in-five

Look, the newest Einstein
In Germany, they say that boy-do is Einfrein

That's my 1-2, in case you need a translator
Plus there's one or two model-b*tches, in my planslator

While you and you're girl in between fights
I lay her over, like shes in between flights
You somewhere from UHHH, to in between nights
And I wake every single night, in between dykes
I can't stop, 'till my name is somewhere, in between
lights
Or multiple color gymstones, in between ice, yeah

I'm witty and gifted, I'm pretty persistent
But I keep this b*tch running, like a Diddy assistant

So while your runs ended, my runs are endless
I will never stop, period, run-on sentence
This run I'm on, I should stress, I might injure-
something
Plus I go in, Bang-Robbice, keep the engine running

Run circles 'round wreck, square n*ggas sound wack
I try-angles to spit from, they haven't found yet
You run 'round acting tough, no circles to back it up
Meet me in the square motherf*cker, if you bad
enough
Bad enough, I paddle these padding rats famous
I adapt to my habitat, and change it
ZERO!
