

Los "Wait For It"

Visit "[Wait For It](#)" on MotoLyrics.com

Bitch I'm groovy, I put all my chicks in louies
Plus I blow that hammer money
Have ya honey twist and screw me
Like a phillips screwdriver
Jus copped the wheel a new driver
She popped a pill and blew flyer
That means that head was the bomb
Like... tic tic tic tic...
But I'm the only one blowin up
Told her please bring your homies
Don't be the only one showin up
They call me mr "rope her"
She peeped the swag and it's dizzy
Was jus her and her friends
So we did the jack janet chrissy
That's threes company nigga
These bitches fuck we me nigga
You 4 leaf clover these hoes
That ain't got no luck with me nigga
Like uhhhh...

They tryna hate (hate)
Too late for em(late for em)
All they could do now is wait for it
Wait for it, wait for it
Wait for it, wait for it
Now na na let that bitch
Go go go go go go go go go go

They say my I'm ruthless I got no roof on the coupe in
the south
I rock the kinda jewelery bitches go stupid about
Say my name don't make me come knock every tooth
out your mouth
Stand on my money then take a piss on the roof of your
house
I'm the opposite of santa clause cadillac diana ross
Ridin with a wheelie like my car real got handle bars
Got Shaq's on the truck
Got Kobe's on the coupe
Got a bad lil bitch tryna throw a nigga oops
that's a pick and roll

She throw it to me
I throw it back
That's a give and go
Then we gettin low like midgets
Pray ya bitches, pray these niggas dead
Waitin for you rappers to diss me fuck it these niggas
scared

They tryna hate (hate)
Too late for em (late for em)
All they could do now is wait for it
Wait for it, wait for it
Wait for it, wait for it
Now na na let that bitch
Go go go go go go go go go go

Now they don't want this piranha
Jus my persona could beat ya
Don't get it twisted I'm gifted
Like Christmas, Hanukkah Easter
They say that bastards bout ta drop a classic
And make all these rappers learn
Everybody waitin for it like this bitch a tax return
Um, your bitch was waitin to scope me
She posted all on my block
Like big worm was waitin for smokey
I told her skate with the homie
And got my whole team 8
Then made the bitch wait like a protein shake
I was weighin my options I had some weight on my
back
But ain't no way that I'm stoppin now I'm awake from
my nap
Yea I'm a monster I conquer and I'm jus statin the facts
With out no sponsor they call me the most awaited in
rap niggga

They tryna hate (hate)
Too late for em (late for em)
All they could do now is wait for it
Wait for it, wait for it
Wait for it, wait for it
Now na na let that bitch
Go go go go go go go go go go
