Man I got dumb hoes, stupid bands  
The guts red but the coupe is tan  
If a slut with it, I'ma scoop her damn  
and have her draggin balls (dragon balls) no Super  
Saiyan  
Make her pussy whistle like a flute was playing  
At my crib tonight (Kryptonite) no Superman  
Get it kryptonite, Superman I'm in a new sedan  
And bumping Luther Van (Vandross)  
I make her grip, break a cheque  
Make your bitch break her neck  
Handle you niggas that won't even break a sweat  
(whoop)  
Hit your breaks, slow it down, your shit was fake  
Lil nigga, big mistake, I'm the shit, what's the big  
debate  
My niggas in the kitchen got shit to bake  
Bitch I'm nuts like Christmas cake  
I said cut your single and drop it  
Everything bout to slow up  
Got Krispy Kreme in my pocket  
In other words my dough nuts  
She go nuts when I'm in her thang  
No luck with chu minute man  
My city told me go kill you niggas  
So I told the coach to put me in the game

i say i ball i swag i grind i floss  
i cop these cars pop tags i shine take off
