Now it's my time (my time)  
If God willing to hit me off the...  
The Lord is ....because I'm...

Staring at my ....windows with sealed curtains  
reminiscent while my momma was still working  
The block that I'm from, the way that I live  
And I probably never change, that's the way that it is!  
So I'm giving out love in exchange for the war  
And I'm lifting up my hood like I'm changing the world...  
I can't get you sunshine, and the mist and the rain  
All I can offer is a smile and the...  
...I forever put my hood on!
