

Los Amigos Invisibles "Ease Your Mind"

Visit "[Ease Your Mind](#)" on MotoLyrics.com

Unwind your mind and don't look back
To what you left behind
You will find, the music that we play
Will ease your mind
When your feeling down and you've got
Enough of this boring town
Don't despair, let the music that we play
Feel the air.
As you hear the sound, enjoy yourself,
You'll always be around
You must try and let the music that we play
Take you high.
In this world today, there must be a way
To escape the games we play
So every day let the music that we play
Say what we want to say
