I didn' t want to get into this
I was just hoping to have a good time.
What can I do I'm in love with you TONIGHT
Just one touch played all my keys
You shoot me off Like a... Star
What can I do I'm in love with u TONIGHT
Now you're the only one I need To be by my side
I know u're the one for me TONIGHT
Now every minute I need your kiss
You brought me feeling like a little child
What can I do I'm in love with you TONIGHT
Maybe tomorrow will never bE
Maybe this moment will last a lifetime
Whatever hard is and fun by me
Coz I'm in love with you—can't you see...
I really think you're the one for me TONIGHT.
Now u're the only one I need to be by my side
I know u're the one for me TONIGHT!
