You got the spotlight, girl you demand all the attention
Stary eyes, maybe I need a new prescription
I see you on top of me I'm having visions
Fireâ€¦ dizzy baby
Drop it low, hot like a fire on the stove
Don't go, keep meâ€¦of a vision
I see you on top of me I'm getting physical
It's time to go, go, go, go

If you're beautiful. you know it, just clap your hands,
hands
All my pretty girls â€¦ clap your hands tonight
If you're sexy and you know it, if you â€¦ come on and
show it
If you're beautiful, come on and clap your hands
tonight

Yeah, â€¦ baby, take me yeah
Hit the floor, you got me wondering what's in store
Lights off and the alarm it's going down, yeah it's
going down
yeah it's going down
Drop it low, hot like a fire on the stove
Don't go, keep meâ€¦of a vision
I see you on top of me I'm getting physical
It's time to go, go, go, go

If you're beautiful. you know it, just clap your hands,
hands
All my pretty girls â€¦ clap your hands tonight
If you're sexy and you know it, if you â€¦ come on and
show it
If you're beautiful, come on and clap your hands
tonight X 2

â€¦up in here, â€¦ in the â€¦
To the roof in here, raise it to the atmosphereâ€¦
until the night is gone, I wanna see you move, move.
