You got the spotlight, girl you demand all the attention
Stary eyes, maybe I need a new prescription
I see you on top of me I'm having visions
Why you spinning around? I'm getting dizzy baby

Drop it low, hot like a fire on the stove
Don't go, keep me under your supervision
I see you on top of me I'm getting physical
It's time to go, go, go, go

If you're beautiful. you know it, clap your hands, hands
All my pretty girls so girl we clapping hands in awe
If you're sexy and you know it, if I'm low come on and
show it
If you're beautiful, come on and clap your hands in awe

Non-stop, I'm captivated, baby take me there
Hit the floor, you got me wondering what's in store
Lights off and the alarm is going down,
Yeah it's going down, yeah it's going down

Drop it low, hot like a fire on the stove
Don't go, keep me under your supervision
I see you on top of me I'm getting physical
It's time to go, go, go, go

If you're beautiful. you know it, clap your hands, hands
All my pretty girls so girl we clapping hands in awe
If you're sexy and you know it, if I'm low come on and
show it
If you're beautiful, come on and clap your hands in awe

If you're beautiful. you know it, clap your hands, hands
All my pretty girls so girl we clapping hands in awe
If you're sexy and you know it, if I'm low come on and
show it
If you're beautiful, come on and clap your hands in awe

If you're down, it's heatin up in here
It's all up in this everything
To the roof in here, raise it to the atmosphere

Dressing all on you, you're so beautiful
Until the night is gone, I wanna see you move, move,
move

If you're beautiful. you know it, clap your hands, hands
All my pretty girls so girl we clapping hands in awe
If you're sexy and you know it, if I'm low come on and
show it
If you're beautiful, come on and clap your hands in awe

If you're beautiful. you know it, clap your hands, hands
All my pretty girls so girl we clapping hands in awe
If you're sexy and you know it, if I'm low come on and
show it
If you're beautiful, come on and clap your hands in awe

Eh oh eh oh eh
Clap your hands in awe
Tonight
Eh oh eh oh eh
Clap your hands in awe
