

## Chrishan "Break Ur Heart"

Visit "[Break Ur Heart](#)" on MotoLyrics.com

Never got my ways (my ways)  
Swear I never had it easy (had it easy)  
Didn't want to learn anything (anything)  
Didn't wanna listen to the teacher (teacher)  
He said that I was such a lover (lover)  
Cause I wanted to be the fighter (fighter)  
So that I could fight for her (her)  
Damn guess I was wrong from the start

Girl you (you), you (you)  
Showed me what it was  
And you (you), you (you)  
Helped me through the dust  
Now my mind's clear  
I feel better  
And to you girl I owe  
Girl I put this on my soul

I would never break your heart  
I would never wanna love again  
Girl I would never break your heart  
I would never break your heart  
I would never break your heart  
Can't you see I'm in it for the win  
Girl I would never break your heart  
I would never break your heart  
Girl I would never break your heart

Always have a million questions (questions)  
Thought I had a million answers (answers)  
Didn't stop to check my source (my source)  
Cause it really didn't matter (to me)  
I was young, I was dumb  
But understand where I'm from  
I'm such a better man than I was  
So don't worry about my past  
I'm gone and never looking back (looking back)

Girl you (you), you (you)  
Showed me what it was  
And you (you), you (you)  
Helped me through the dust

Now my mind's clear  
I feel better  
And to you girl I owe  
Girl I put this on my soul

I would never break your heart  
I would never wanna love again  
Girl I would never break your heart  
I would never break your heart  
(Promise not to break it)  
I would never break your heart  
Can't you see I'm in it for the win  
Girl I would never break your heart  
I would never break your heart

Count on me  
To be there in times of darkness  
Girl don't be scared (don't be scared, I'm right here)  
All you need is to trust me baby  
I'm yours

Baby I would never break your heart  
I would never wanna love again  
Girl I would never break your heart  
I would never break your heart  
I would never break your heart  
(I would never break your heart)  
Can't you see I'm in it for the win  
(Can't you see I'm in it for the win)  
I would never break your heart  
I would never break your heart
