[Verse 1]

Baby, why you gotta do me this way (this way)
Baby, why you gotta take love away (away)
Girl you so cold, South Pole's where you reside
And you take, take, take thats how you survive
But its over, its getting warmer
I ain't playing with ya, cuz its over

[Chorus]

I know, I know, I know what you want
But you ain't gonna get it (ohhh-ohh)
You try all you want
But you aint gonna get it (ohhh-ohh)
Whatever you do, I can do it better
I can do it better than you (I can do it better)

[Verse 2]

Baby, why you tryna change up the game (the game)
(Baby) Baby, don't think I picked out your ways (your ways)
Girl you so cold, South Pole's where you reside
And you take, take, take thats how you survive
But its over, its getting warmer
I ain't playing with ya, cuz its over

[Chorus]

Whatever you do, I can do it better
I can do it better than you (I can do it better)

[Chorus]

Whatever you do, I can do it better
I can do it better than you (I can do it better)
I can do it better..
I can do it better..
