Girl I know you probably hate me now
I let you down
Didn't really think that I was leavin'
And I know it hurts right now
Left you out, didn't really give you a reason
And I know that's sad, all that I said,
But I wish I could take it back

Cuz you were in love with me
But now you don't wanna be
I'm cryin now somebody help me, somebody help me
